

Join the largest European wind energy event in 2021

ON & OFFSHORE WIND
AND BEYOND!

Electric City: A unique event that brings the entire wind industry together with players from beyond wind.

Electric City is an enhanced version of your classic WindEurope event: the entire on- and offshore wind industry will be there, and new partners looking to do business with wind will be there too! At Electric City we will welcome heavy industry, mobility, district and domestic heating, storage, hybrids, hydrogen and many more to form partnerships and help us deliver an electrified European economy. The next chapter of wind energy begins at Electric City... see you there!

IN COLLABORATION WITH:

**wind
denmark**

2021 marks a new era of wind energy events. Come to Electric City and be part of it.

300+
