The modern rustic Scandic Sydhavnen is located 3 km from central Copenhagen, only 3 min from Sydhavn train station where the commuting trains take you to the city center in just minutes. Hotel is also conveniently located only 4 km from Bella Center. This hotel offers great meeting facilities, Nordic cuisine with a twist restaurant and a modern gym, spa with view over Copenhagen. Guests can take advantage of a big parking space of the hotel.

This modern hotel is centrally located with stunning views over the city lakes and at the other side the city center. All 18 floors have been renovated with a new, modern and inspiring interior. Copenhagen’s attractions are right on your doorstep and you can relax with a drink in the atmospheric lobby bar unwind in the sauna or just enjoy a massage after a full business day. Hotel is one of the largest conference hotels in Copenhagen, and conference rooms can accommodate up to 1100 people.

As the largest Nordic hotel chain, we feel a big responsibility for our planet and what we leave behind. The majority of our 270 hotels are certified with the Nordic Swan label or other environmental certifications. The Nordic Swan is the official ecolabel of the Nordic countries and is one of the toughest ecolabels to achieve.

Our initiatives include:

**ENVIROMENT & PLANET**

We serve our own water from dispensers that chill, filter and carbonate it. This cuts fossil carbon emissions by 160 tons – (the equivalent of 97 flights back and forth Sweden to Thailand!). Since 2017 we have removed 1,3 million plastic straws per year, our hotels are powered by nature such as solar, wind and hydro. 5287 bathtubs full of water were saved in 3 hotels in just 3 months in Norway.

Our hotels brew beer based on left over bread from our breakfast, potentially saving 6 600 slices of bread per year; we are the first hotel chain in Europe to serve The Beyond Burger. In 2019 we served 68 200 Beyond Burgers; 155 000 portions of food saved from apps that reduce waste only in 2019. Karma (SE), Too Good To Go (NO, DK and DE), ResQ Club (FI); we also saved 280 tons Carbon dioxide the equivalent of 167 flights back and forth Sweden to Thailand! In collaboration with Scandic, Löfbergs Lila developed climate-neutral coffee packs made from renewable raw sugar from sugar canes and this is now implemented everywhere in the Swedish and Finish markets.

**COMMUNITY & INCLUSION**

Our Hotels have won the best workplace for inclusion in Denmark in Great Place to Work both in years 2018 & 2019. In 2019, our Scandic Friends members donated points to a value of 2 milj SEK to Save the Children. And the summer 2019 we welcomed over 70 families at our hotels in Finland for a free overnight stay; Together with the organization My Dream Now we’re working to help students find hope in the future. Our Team members get involved, visit schools and help with everything from writing CVs to inspiring dreams; Mitt Liv (My Life) works to achieve an inclusive society and a labor market that values diversity. It’s a mentor/mentee program for people with a foreign background who lack work that matches their skills, as well as professional contacts and networks, 25 new Norwegian colleagues via “Helt Med”, that helps people with disabilities enter the labor market; Mitt Liv (My Life) works to achieve an inclusive society and a labor market that values diversity. It’s a mentor/mentee program for people with a foreign background who lack work that matches their skills, as well as professional contacts and networks.
CABINN HOTELS

FROM TALK TO ACTION
Sustainability is a very big part of the CABINN concept. We don’t just talk about the best way that we can take care of the environment. We do something about it. This is clearly shown in our hotels themselves. They are conceived, designed and built to give our guests a positive hotel experience with lower energy consumption.

ENVIRONMENT & PLANET
We use much less energy for heating than most other hotels. This is because our rooms are smaller as well as highly insulated. Furthermore, our rooms have no more than the required number of light fixtures, smaller televisions and no unnecessary electrical appliances (e.g. trouser presses).

We have also designed our bathrooms without bathtubs and whirlpool baths because they both consume a great deal of water. Instead, all our bathrooms have showerheads fitted with water-conserving filters. All these initiatives contribute to reducing energy consumption for the benefit of the environment.

However, we know for certain that we can make a difference in other areas as well. A good example is our cleaning, where we only use detergents carrying The Nordic Ecolabel. Similarly, all our bed linen is washed and treated according to the criteria of The Nordic Ecolabel.

OUR GREEN FOUNDATION
We regularly implement new projects which build on the solid and sustainable foundation upon which the hotel chain rests. Our aim is to constantly improve our routines and procedures as well as products and services to reduce our environmental footprint, for example:

Replacing technical installations; using eco-friendly products; Training staff; Actively collaborating with regulatory bodies; ensuring sustainable sourcing and investments, replacing the computers in our reception areas with new versions that consume 50% less electricity, modernization of several ventilation systems and we are in the process of replacing all halogen light bulbs with low-energy LED bulbs to further reduce our electricity consumption.

CONTINUOUSLY MAKING GREEN IMPROVEMENTS
No matter how many new green projects we carry out, we understand that we will never finish improving our efforts when it comes to sustainability. As mentioned, we don’t just talk about the environment at CABINN, we do something to improve it. Not just occasionally, but all the time.

RISING above the city skyline, the Radisson Blu Scandinavia Hotel, Copenhagen affords stunning views of the ancient City Hall, the gilded church towers of Christianshavn and the picturesque coast. Stylish and modern, each of the 544 rooms and suites offers thoughtful amenities like Free high-speed, wireless Internet, room service and cable television. Enjoy picturesque backdrops and memorable cuisine at one of the 3 on-site restaurants, or try your luck at the city's only casino.

### RADISSON HOTELS

We are passionate about caring for others, and that extends beyond the walls of our hotels. We believe in conducting business ethically in all we do and want to be a thriving, sustainable and responsible business for people, the community and our planet.

#### PEOPLE

At Radisson Hotel Group we have ethical business practices at the core of our culture, which is evident in the way we treat our customers, team members, suppliers, and business partners. We believe in providing meaningful employment, developing talent, and increasing young people's employability. We promote human rights, business ethics, and diversity in our hotels, business network, and supply chain.

#### FOOD

70% grain products, fruits and vegetables, 30% fish & meat, primarily fish, locally sourced ingredients, pure ingredients with minimal industrial processing, focus on good taste and satisfying the senses, deliveries are primarily done with no plastic wrappings and in reusable boxes.

#### COMMUNITY

Radisson Hotel Group aims to create relationships which are beneficial to our business and the communities in which we operate. We recognize that there are important social needs in many of these communities. Our goal is to have a positive impact on communities by creating shared value.

#### PLANET

It’s in our interest to support the preservation of natural resources and destinations. Radisson Hotel Group is making efforts to reduce our carbon, energy, water, and waste footprint as part of Think Planet. We aim to reduce the negative impact of our business on the planet, enhance our ability to deliver the value our customers expect and protect valuable natural resources for future generations.

BC HOSPITALITY GROUP

BC Hospitality Group is a Green Key business since its opening. This means that you automatically help preserve the environment, as we meet Green Key’s stringent environmental requirements. We make it easier for you to care for the environment without diminishing your experience or comfort. Green Key is an eco-label available worldwide awarded to tourism businesses in more than 60 countries.

At BC Hospitality Group we base our work on the concept of Responsible Hospitality. This means that we, in addition to delivering the best possible service for our guests and customers, also take responsibility for the impact that our business has on society and the environment and strive to affect our surroundings positively.

FOOD

Food with thought. Locally sourced, seasonal, Fair Trade, organic and bio-dynamic, animal welfare Food waste initiatives: We work with organizations that distribute food waste from our restaurants to socio-economic projects around Copenhagen e.g. Too Good To Go.

PEOPLE & COMMUNITY

Job school: Partnership with organizations supporting new citizens in Denmark with non-Western background dependent on welfare benefits. Purpose is to support new citizens on their journey into a permanent job in Denmark by providing a training course consisting of practical, classroom and language training.

Community partnerships: Engagement with local community, children’s cooking school, charity food run, LITTLEBIGHELP

Careers that matter: We foster a diverse and inclusive culture with a big focus on the best conditions for our employees e.g. requirement of collective agreements with trade union and private health care insurance. Inclusion, diversity & equality, almost 50/50 men/women across all hotels.

PLANET

Sustainable development goals: across all business units we carefully integrate and work with solutions based on goal 8 (climate), 12 (sustainability) and 13 (economic growth).
