

Join the largest European wind energy event in 2021

ON & OFFSHORE WIND
AND BEYOND!

Why get into business with wind right now?

- Wind energy will be the no. 1 source of power in Europe by 2027.
- Wind energy is at the heart of Europe's €1.85 trillion Recovery Plan from COVID-19.
- Europe's wind-powered future is now a political and business reality.

Why Electric City?

- Electric City is where you can get on board with Europe's energy future.
- Everyone who is anyone in the on- and offshore wind sector will be there, under one roof.
- Our networking tools and B2B events are designed to maximise your face-time with the people you want to meet.

Why you?

- Sectors like e-mobility, hydrogen, shipping and others are now in a race to do business with wind.
- Why? Because they know that wind will help electrify Europe's energy mix.

Because they want to be part of Europe's energy future. They will be at Electric City. Will you?

2021 marks a new era of wind energy events. Come to Electric City and be part of it.
