

## Windtechnic expands its business to Turkey

**Windtechnic** continues its international expansion by signing an Agreement with **Prekast Beton San. Ve Tic. A.Ş.**, part of Enisler Group, which has 35 years of experience in construction.

Prekast Beton produces over 200.000 m<sup>3</sup> precast reinforced concrete elements per year in its manufacturing facilities located in Muratlı district, Tekirdağ, and İstanbul, Başakşehir.

With this partnership the JV will offer the Turkish market a high added value proposition, through the union of strengths of both companies, and support the Global Energy Transition with:

**Job creation**

**Know-how transfer to the country**

**Local development of the industry**

**Local content increase**
