IN PARTNERSHIP WITH

FRENCH EXHIBITORS

ASSET MANAGEMENT AND OPTIMIZATION

● AKROCEAN - C16-J

AKROCEAN provides in situ ocean environmental data as a service, owning and operating modular self-powered buoys and sensors

● ARC INFORMATIQUE - C4-AI

Software SCADA platform to control & optimize renewable assets

● EPSILINE - C16-B

Independent IoT and expert team data analytics for Wind Turbine performance, optimisation and asset life preservation

CLUSTER, ASSOCIATION, BUSINESS NETWORK

■ AQUITAINE BLUE ENERGIES - C16-G

Marine and Offshore Wind Energies cluster for local and skilled companies in Nouvelle-Aquitaine (South West France)

■ BRETAGNE OCEAN POWER - C16-G

Bretagne Ocean Power is your gateway to almost 200 skilled Breton companies already committed in offshore wind energy

■ FRANCE ENERGIE EOLIENNE - B30-I

France Energie Eolienne is the professional union that represents, promises and defends wind energy in France

■ NEOPOLIA - C16-G

Neopolia is an industrial business cluster. The entry point on the offshore wind and hydrogen supplychain

■ **NORMANDIE MARITIME - C16-G**

Normandie Maritime is the regional player of maritime activities in Normandy

■ **SUDEOLE - C16-G**

Sea innovation cluster, maritime & coastal activity, economy & international development

SYNDICAT DES ENERGIES RENOUVELABLES - B30-H

- The French Renewable Energy Trade Association (SER) was established in 1993 to promote the interests of industrials and professionals in the sector to public authorities, parliament and all bodies in charge of energy, industry, employment, the environment and research

■ **WIND'OCC - C16-G**

Wind'Occ is a collective initiative for the floating offshore wind industry in Occitanie Region in France

ENVIRONMENTAL ASSESSMENT

◆ **BIODIV-WIND - C16-E**

Biodiv-Wind develops, installs and operate artificial intelligence based wildlife detection system in industrial environments

◆ **EOLTECH / IREC INDEX**

Eoltech is a 20 years' experience consultancy mainly involved in wind resource assessment

◆ **RTSYS - B30-E**

RTsys is a French company specializing in underwater acoustics (passive and active) and autonomous vehicles

◆ WIPSEA

Environnemental digital assessments thanks to AI

EQUIPMENT MANUFACTURER, SAFETY SOLUTIONS

▲ DEFONTAINE SAS - ROLLIX - B30-A

ROLLIX, expert in blade bearings for offshore & onshore wind turbines with the largest range of spare parts & service

▲ HENSOLDT - C16-C

HENSOLDT France designs and produces a smart aircraft detection sensor to switch on/off wind turbines lights on demand

▲ MÉTÉORAGE - B30-G

Météorage provides professional solutions helping users to manage and monitor their operations before, during and after thunderstorms

▲ TITANOX FASTENING TECHNOLOGIES - C16-A

Titanox specialises in supplying high added-value technical fasteners and dynamic assembly solutions worldwide

▲ TRESSAGES DU DORLAY - B30-K

We are able to braid any material available in fiber or wire for all your applications or demands for electrical and mechanical protection

PROJECT DEVELOPMENT, OPERATION & MAINTENANCE

★ **BW IDEOL - B30-C**

BW Ideol is a winning floating wind co-developer & a proven technology provider with more than 12 years of experience

★ **NT WIND - B30-J**

Specialized and experienced technicians for wind turbines operations, full GWO Offshore & Onshore. All Europe

★ **ORANGE MARINE**

Orange Marine, subsidiary of the Orange Group, is a cable ship owner specialized in offshore work on submarine cables, from designing and engineering new projects to installing new connections and maintaining existing cables (telecommunications, energy, or hybrid)

★ **PROBENT**

Assembler for high-level service projects in machining and mechanical welding

★ **VALEMO - B30-B**

Operation, maintenance and advanced technical services on renewable energy assets (onshore and offshore) and HV substations

★ **VALOREM - B30-B**

VALOREM is a European IPP of green energy from wind to solar and hydroelectric powerplants

RESEARCH & DEVELOPMENT

▲ **FRANCE ENERGIES MARINES - C16-D**

France Energies Marines is the French institute for the energy transition dedicated to offshore renewable energies

▲ SUPERGRID INSTITUTE - B30-L

Expert in innovative power systems offering technological solutions & services for the development of future power grids

SHIPYARD, PORTS, MARITIME OR AERIAL LOGISTICS

▼ AMLP (AGENCE MARITIME LA PALLICE / GROUPE MARITIME KUHN) - C16-F

With its 70-strong team's collaboration, AMLP offers whole services to vessels, such as handling, shipping agency, forwarding, customs, storage, transport

▼ ATLANTIQUE OFFSHORE ENERGY - B30-F

Dedicated to the Offshore Wind Industry, we are a smart and committed partner for your Electrical Offshore Substation projects

▼ FLYING WHALES

FLYING WHALES develops the LCA60T, an airship able to load and unload up to 60 tonnes of cargo without ever landing

▼ FORSSEA ROBOTICS - C16-I

FORSSEA ROBOTICS develops underwater systems to perform visual inspection and survey operations for the offshore energy sector

▼ LOUIS DREYFUS ARMATEURS - C16-H

Innovative shipowner and solution provider dedicated to decarbonisation of marine services

▼ PORT ATLANTIQUE LA ROCHELLE - C16-F

Port Atlantique La Rochelle, a protected deep sea port in the centre of the French Atlantic arc

▼ PORTS OF NORMANDY - B30-D

100 Hectares Linked To Renewable Marine Energies In Cherbourg For Wind Farms Projects

▼ SINAY

Sinay's software and APIs give the key indicators to plan and manage properly offshore operations thanks to data management & AI
