- [PARKING PLAN](#)
- **Access during the build up / break down**
- Access to the halls is limited to people of 16 years and older.
- Build-up and breakdown wristbands will be issued in the exhibition operations office between hall 1 and 3, providing all compulsory forms has been submitted.
- In order to guarantee a safe working environment, during build-up and breakdown days, Health & Safety Floor Managers will be performing regular checks to make sure that exhibitors and contractors are in compliance with event safety regulations.
- All personnel entering the halls will be required to wear and be in possession of suitable footwear and a hi-visibility vest during build-up days and breakdown.

## LOADING / UNLOADING / DELIVER OF GOODS

- Vehicles wishing to deliver goods should use the [“GOODS ENTRANCE”](#) access on Calle El Retiro/cargo Ronda Ismael Gorostiza. This is found between gates B & C.
- [VEHICLE ACCESS MAP](#)
- Traffic marshals will direct you to the nearest unloading/loading area upon your arrival as soon as a space is available.
- Only CEVA Logistics can use forklifts in the hall, so if you have booked lifting or require lifting from your vehicle into the hall, please check- in to the CEVA Logistics site office, which is located between Halls 1 & 3.
- Once you have unloaded trucks can park [at the front of the GOODS ENTRANCE](#), once a parking ticket has been purchased.
- **Please note a one-way traffic system is in operation around the venue.**
  - Access to the halls shall be permitted exclusively for the unloading of materials via the cargo lift.
  - In no case may a passenger lift be used for loading and unloading.
  - Vehicles may not park in the loading and unloading areas adjacent to the cargo lift.
  - BEC assume no liability for surveillance of vehicles while they are in the loading and unloading areas.
  - All vehicles must park in the designated areas
  - In no case shall the BEC assume any liability for the contents of such vehicles.
- Neither the organisers nor Bilbao Exhibition Centre can sign on behalf of any exhibitors or take responsibility for any items of post.

# VENUE TECHNICAL INFO / VENUE SERVICES

## VENUE TECHNICAL INFORMATION

- The ceiling of the halls is covered with a spatial grid with a hanging load capacity of 270kg/ball. The distance between balls is 3.65m.
- The floors of the halls have a maximum overload of 4,000kg/m2.
- All of the halls have power conduits, voice and data connections, water and draining every 6m. Each hall has 8 access gates (facing 4 against 4) that are 5m wide by 5 m high, for loading vehicles.
- Visitors will access the exhibition hall from main corridor – Atrium. Participants will arrive in the hall on the balcony, giving them the view on exhibition from height of 7 meters, so please factor that in your stand design.
