

KODIAK SECURES EXCLUSIVE PARTNERSHIP FOR VITAL ROLES IN ELIA'S GROUND-BREAKING ENERGY ISLAND INITIATIVE

+++OFFICIAL PRESS RELEASE+++

Hamburg, January 2024 - KODIAK, a leading provider of comprehensive project management solutions for the renewable energy sector, proudly announces its successful selection as the exclusive supplier for quality control (QC) inspection, health, safety, and environment (HSE) and client representative services for the civil engineering works of the world's first Energy Island project, Elia's artificial Princess Elisabeth Island (MOG2) in the North Sea.

In this collaboration, KODIAK will perform QC Inspection to maintain quality standards and provide HSE services for health and safety compliance during concrete caisson fabrication. KODIAK will furthermore provide client representative services to monitor marine activities such as dredging or rock dumping related to construction of the island which will also integrate future interconnectors with the United Kingdom and Denmark.

This partnership reflects KODIAK's commitment to supporting Elia's vision for a sustainable and interconnected energy future.
