

Ørsted presentations at our stand in Hall E during WindEurope 2025

Day 1 Tuesday 8 April

- 10.30** Energy independence through secure and resilient offshore wind power production by Daniel Mortensen
- 11.15** Building Baltica 2: A flagship project for offshore wind in Poland by Ulrik Lange (Ørsted) & Bartosz Fedurek (CEO of PGE Baltica)
- 12.30** Ørsted's collaboration with AI bird monitoring start-up Spoor by Ruchit Majmudar (Ørsted) & Ask Helseth (CEO of Spoor)
- 13.30** Building Hornsea 3: The world's single largest offshore wind farm by Benj Sykes
- 14.15** Ørsted & the offshore wind supply chain by Procurement
- 14.45** PICASO: Innovative monopile design for offshore wind farms by Morten Albjerg Liingaard
- 15.30** Powering people: Delivering lasting positive community impacts by Viet-Chi Pham
- 16.30** Reception

Day 2 Wednesday 9 April

- 10.00** Project snAlke: Using AI to detect shallow gas in 2D seismic data by Matthias Fabian Trischler & Søren Skov Jensen
- 11.00** Biodiversity: Taking action today for measurable impact tomorrow by Anne Bryde-Procida & Ditte Louise Bilde
- 13.15** Quantified benefits of unlocking offshore cooperation between governments by Øyvind Vessia & Julian Hentschel (Thema) & Søren Møller Christensen (EIF)
- 14.00** Ørsted & the offshore wind supply chain by Procurement
- 14.45** Update on Ørsted's low-noise technologies by Dan Kallehave
- 15.30** Black Swans: Ørsted's response to unexpected, unpredictable high-impact events by Mathias Bækdal Madsen
- 16.30** Reception

Day 3 Thursday 10 April

- 11.30** Insights from a new report launched by Ørsted:

Offshore wind at a crossroads: Reviving the industry to secure Europe's energy future by Jakob Forman
