

# TECH TALKS

Join our experts in cable stabilisation for short, sharp  
Tech Talks at the Aurora stand

Located in Hall 10, Stand C82

## DAY 1 - Tuesday 21<sup>st</sup> April

### 11:00-11:15 - Bryan Thurstan

Cables in TRenches Under the  
Sea (CiTRUS JIP)

### 12:30-12:45 - Dr. Feifei Tong

Engineering Rocks! Lessons for  
Subsea Cable Stabilisation from JIP  
Rock Bag Projects

### 14:45 - AuroraCAT Demo

Letting the CAT out of the  
bag! Stay for the Beers &  
Beach Cricket Party!

## DAY 2 - Wednesday 22<sup>nd</sup> April

### 11:00-11:15 - Dr. Fabrizio Pistani

Different Energies, Different  
Engineering: Aurora engineering  
solutions for the stability of  
subsea cables

### 13:00-13:15 - Dr. Hongwei An

Hydrodynamic features of  
subsea HVDC bundles

### 15:00-15:15 - Dr. Yunfei Teng

How do rock berms – a  
common cable protection  
measure – get reshaped by  
scour?

## DAY 3 - Thursday 23<sup>rd</sup> April

### 11:00-11:15 - Dr. Terry Griffiths

Bunches of fun! HVDC bundle hydrodynamics, fatigue (VIV) and  
on-bottom stability
