

## PRESS RELEASE

**FloatMast®**, the world's **first** floating TLP mast has reached 4 months of continuous operation in the Aegean Sea. The innovation provides **the best wind measurements** for **maximum economic gain** for fixed or floating Offshore Wind Parks. It is Mediterranean's **first** offshore wind infrastructure and a **complete** environmental monitoring solution providing **advanced** capabilities for reducing the income and design risks of **Offshore** Wind Investments.

**Visit us at Wind Europe Offshore 2019 at Copenhagen, stand C4-B2.**

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 784040
