

Mohammad Hassan Ghafouri

Founder of Iran-Wind Group

Founder and Managing Director of Aysa Ltd

Mohammad founded the Iran-Wind Group in 2015 with the aim of helping to develop renewable energy in Iran by finding and removing the barriers and strengthening the capabilities of renewable energy companies in Iran.

In January 2016, Mohammad also set up AYSA Ltd, a company providing consulting services to Iranian and international developers and investors active in wind and solar.

Mohammad has a Masters Degree in Solar Energy Technology from the Technical University in Berlin and a Bachelor in Applied Sciences from Sharif University of Technology.
