

Wind^o

EUROPE

5 REASONS TO GO FOR RENEWABLES:

- Renewables are cheap: onshore wind is on average the cheapest form of new power generation;
- Smarter markets and technology are driving down integration costs;
- Renewables are a free local resource so help energy security. No exposure to volatile fossil fuel imports;
- Renewables can benefit local communities: local jobs and revenue; community ownership;
- Renewables bring jobs and growth across Europe: wind employs 330,000, generates €72bn revenue pa, supplies more than 10% of our electricity and is a major export industry.
